Explain all yes answers and provide dates for occurrences: _____

It is my choice to receive massage therapy. I realize that the treatment is being given for the well-being of my body and mind. This includes stress reduction, relief from muscular tension, spasm or pain, or for increasing circulation or energy flow. I agree to communicate with my massage therapist any time I feel my well being is being compromised.

I understand that massage therapists do not diagnose illness, disease, or any physical or mental disorders, nor do they prescribe medical treatment, pharmaceuticals, or perform spinal thrust manipulations. I acknowledge that massage is not a substitute for medical examination or diagnosis, and that it is recommended that I see a primary health care provider for that service.

I have stated all medical conditions that I am aware of and will update the massage therapist of any changes in my health status.
